## OVERVIEW

---

Highly motivated with a firm basis in Java, HTML, CSS, and JavaScript. Proven ability to collaborate with cross-functional teams to deliver user-friendly applications, improve system reliability, and increase customer satisfaction: strong work ethic, adaptability, and exceptional interpersonal skills.

## PROJECTS

---

- **Bank Management System**
  - Built a Java project called "Bank Management System" as well as an ATM Simulator System.
  - The functionality of this ATM Simulator System includes Depositing, Withdrawing, Opening Accounts, Producing Mini Statements, Changing PINs, and more.

- **Dribbble Clone**
  - Recreated the intricate design elements and interactive features of a Dribbble design, demonstrating proficiency in front-end development.
  - Focused on maintaining fidelity to the original design while ensuring cross-browser compatibility and responsive layout for a seamless user experience.
  - **Link:** <https://mharshita02.github.io/DribbbleClone/>
- **Carousel Effect**
  - Developed a responsive and product carousel to showcase featured products. The carousel should automatically rotate through the featured products and allow for manual navigation as well.
  - Enabled automatic rotation of featured products, with the option for manual navigation using arrow buttons.
